Overview Dashboard

This displays key graphs and tables that provide an overview of the entire report. Click on the title of a graph or table to navigate to the corresponding page.

| Visit Summary | |
|--|----------|
| Visits | 17,330 |
| Average per Day | 577 |
| Average Visit Length | 00:08:19 |
| Median Visit Time | 00:00:46 |
| International Visits | 3.69% |
| Visits of Unknown Origin | 25.08% |
| Visits from Your Country: United States (US) | 71.23% |

| Visitor Summary |
|-----------------|
|-----------------|

| Visitor Summary | |
|-------------------------------------|--------|
| Unique Visitors | 11,017 |
| Visitors Who Visited Once | 9,296 |
| Visitors Who Visited More Than Once | 1,721 |

| Page View Summary | |
|-------------------------------|--------|
| Page Views | 53,226 |
| Average per Day | 1,774 |
| Dynamic Pages and Forms Views | 2,415 |
| Document Views | 50,811 |

| Hit Summary | |
|---------------------------------|---------|
| Successful Hits for Entire Site | 215,630 |
| Average Hits per Day | 7,187 |
| Home Page Hits | 473 |

Referrers Dashboard

The table includes statistics on the total activity for this server during the reporting period. All dates and times refer to the location of the system running the analysis.

Activity by Referring Site

This report identifies the domain names and IP addresses that refer visitors to your site. This information will be displayed only if your server is logging this information.

| Activity by Referring Site | | | |
|----------------------------|---|--------|--------|
| | Site | Visits | % |
| 1. | No Referrer | 9,251 | 53.01% |

Search Engines Dashboard

This dashboard summarizes important information related to specific search engines.

Activity by Search Engine

The first table identifies which search engines referred visitors to your site most often, the number of referrals, and its percentage of the total.

The second table identifies the most popular search phrases for each search engine.

The third table identifies the most popular keywords for each search engine.

| Activity by Search Engine | | | |
|---------------------------|-------------------|--------------|----------------|
| | Engines | Referrals | % |
| 1. | google | 1,976 | 53.38% |

Activity by Search Engine - Help Card

Engines - Specific search engine being analyzed in conjunction with the phrase in the adjacent column.

Phrases - The search phrases being analyzed in conjunction with the search engine in the adjacent column. A search phrase is the entire search string entered by a visitor, which can include one or more individual keywords.

Referrers - Number of visitors referred to your site from the specified search engine who used the specified phrase in their search.

% - Percentage of visitors referred from search engines who used the specified search engine and phrase.

Top Search Engines with Keywords Detail Table

Engines - Specific search engine being analyzed in conjunction with the keyword in the adjacent column.

Keywords - The search keywords being analyzed in conjunction with the search engine in the adjacent column.

Referrals - Number of visitors referred to your site from the specified search engine who used the specified keywords in their search.

% - Percentage of visitors referred from search engines who used the specified search engine and keyword.

This information can give you an idea how your meta tags are performing with each search engine.

Activity by Search Phrase

The first table identifies search phrases that led the most visitors to your site, regardless of the search engine they used.

The second table identifies, for each phrase, which search engines led visitors to the site.

Top Search Keywords Table

Keywords - The keyword being analyzed in conjunction with the search engine in the adjacent column. To see the entire search strings entered by visitors, see the Top Search Phrases page.

Referrers - Number of visitors referred to your site with the specified keywords.

% - Percentage of visitors referred from search engines who used the specified search engine and keyword.

Top Search Keywords Table with Engines Detail Table

Engines - Specific search engine being analyzed in conjunction with the keyword in the adjacent column.

Keywords - The keyword being analyzed in conjunction with the search engine in the adjacent column. To see the entire search strings entered by visitors, see the Top Search Phrases page.

Referrals - Number of visitors referred to your site from the specified search engine who used the specified keywords in their search.

% Percentage of visitors referred from search engines who used the specified search engine and keyword.

💡

At the most basic level, this section tells you which search engines are being used most frequently to find your site. You also may find that some search engines are referring visitors to your site with the keywords you expect and that other search engines are not.

Visitors Dashboard

This displays key graphs and tables that provide an overview of the Visitors chapter. Click on the title of a graph or table to navigate to the corresponding page.

| Visit Summary | |
|--|----------|
| Visits | 17,330 |
| Average per Day | 577 |
| Average Visit Length | 00:08:19 |
| Median Visit Time | 00:00:46 |
| International Visits | 3.69% |
| Visits of Unknown Origin | 25.08% |
| Visits from Your Country: United States (US) | 71.23% |

| Visitor Summary | |
|-------------------------------------|--------|
| Unique Visitors | 11,017 |
| Visitors Who Visited Once | 9,296 |
| Visitors Who Visited More Than Once | 1,721 |

Top Visitors

This report identifies the IP address, domain name, or cookie of each visitor, and identifies the visitor's relative activity level on the site. If you use cookies to track visits, Reporting Center can differentiate between hits from different visitors with the same IP address.

Top Visitors - Help Card

Hits - Number of hits attributed to the specified visitor. Each file requested by a visitor registers as a hit. There can be several hits on each page. While the volume of hits reflects the amount of server traffic, it is not an accurate reflection of the number of pages viewed.

Visitor - The IP address, domain name, or cookie of the visitor.

Visits - Number of times the specified visitor visited your site. A visit is a series of actions that

Top Visitors - Help Card

begins when a visitor views their first page from the server, and ends when the visitor leaves the site or remains idle beyond the idle-time limit. The default idle-time limit is thirty minutes. This time limit can be changed by the system administrator.

% - Percentage of total visits or hits made by the specified visitor.

Consider the visitors who use the site most, and tailor your site to their interests and needs. If your site is an intranet, notice which employees use the site most, and find out what they like about it. You might also get feedback from those who use it the least and find out what they are looking for.

Note: If a visitor has a dynamic IP address, or if a group of visitors are behind a proxy server or firewall, this data might be misleading. In the case of a dynamic IP address, multiple IP addresses could be shown for a single visitor, and in the case of a firewall or proxy server, one IP address could be used by more than one visitor.

Visitors by Number of Visits

This report shows the distribution of visitors based on how many times each visitor visited your site.

| Visitors by Number of Visits | | |
|------------------------------|-----------------|---------|
| Number of Visits | Unique Visitors | % |
| 1 visit | 9,296 | 84.38% |
| 2 visits | 1,002 | 9.10% |

| ? |

Visitors by Number of Visits - Help Card

Number of Visits - The number of visits, beginning with one and increasing by increments of one, being analyzed in the other columns.

Unique Visitors- Number of unique individuals who came to your site the amount of times specified in the Number of Visits column.

% - Percentage of unique visitors who came to your site the amount of times specified in the Number of Visits column.

This information can indicate whether or not your site compels visitors to return. Updating Web site content is one way to draw return visitors.

Visitors Trend

This report shows how many times visitors visited your Web site and how long they stayed. The information is divided into time slices based on the duration of the log file. Visits are freshly counted during each time interval in the report. Some visits may span more than one time interval, and therefore a single visit may be counted more than once. This manner of counting visits may cause the Visits Trend total visits to exceed the total visits shown on the Overview Dashboard page.

| Visitors Trend | | | | | |

Visitors Trend - Help Card

?

Average - This row gives the average for each column. The Average row value for the Avg Visit Length column excludes zero-length visits, while the values in the column above include zero-length visits. At times the Average row value is noticeably larger than the Avg Visit Length values shown for the individual time intervals. A zero-length visit occurs when all hits in that visit are logged with the exact same time stamp.

Avg Visit Length - The average amount of time visitors spent at your site within the given time interval. The average visit length for each time interval includes all visits. (The format is hh:mm:ss - hours:minutes:seconds.)

First Time Visitors - Number of visitors who had never visited your Web site before.

Visitors Trend - Help Card

Time Interval - A one-year report displays monthly time increments. A one-quarter report displays weekly time increments. A one-month report or a one-week report displays daily time increments. A daily report displays hourly time increments. An hour-long interval marked 12:00, for example, includes all activity between 12:00 and 12:59.

Total - The total for the column. Some visits may span more than one time interval, and be counted more than once. These duplicate visit counts may cause the total visits count on this row to exceed the actual total number of visits shown on the Overview Dashboard page.

Unique Visitors - Number of individuals who visited your site during the report period. If someone visits more than once, they are counted only the first time they visit.

Visitor Minutes - Number of minutes your Web site was viewed, regardless of who was viewing it.

Visits - Number of visits to your Web site. Each visit by each visitor is counted, even if the visitor came to your Web site many times.

Use this page to determine which times your Web site is busiest.

Daily averages cut off visits that continue into the next day, whereas weekly averages do not. Therefore, weekly averages may appear a bit longer than daily averages.

Visits Trend

This report helps you understand the bandwidth requirements of your site by tracking visits over the course of the report period.

Visits Trend - Help Card

Time Interval - A one-year report displays monthly time increments. A one-quarter report displays weekly time increments. A one-month report or a one-week report displays daily time increments. A daily report displays hourly time increments. An hour-long interval marked 12:00, for example, includes all activity between 12:00 and 12:59.

Visits - Number of visits to your site during the specified time interval. A visit is a series of actions that begins when a visitor views their first page from the server, and ends when the visitor leaves the site or remains idle beyond the idle-time limit. The default idle-time limit is thirty minutes. This time limit can be changed by the system administrator.

% - Percentage of visits to your site during the specified time interval compared with all visits to your site during the report period.

Periods of less activity can be considered good times for maintenance and content improvement.

| <p>?</p> <p>Average Time Viewed - Average length of time the specified page was viewed. (The format is hh:mm:ss - hours:minutes:seconds.)</p> <p>Pages - Any document, dynamic page, or form. Different types of profiles have different default settings for which file extensions qualify a file as a document. These settings can be changed by the Reporting Center system administrator. Any URL containing a question mark is considered a dynamic page. Any file with a POST command is considered a form. If the page has a title, the title of the page and the URL are shown. Otherwise, the URL and the phrase "Page Has No Title" appear.</p> <p>Visits - Number of visits to this page. A visit is a series of actions that begins when a visitor views the first page from the server, and ends when the visitor leaves the site or remains idle beyond the idle-time limit. The default idle-time limit is thirty minutes. This time limit can be changed by the system administrator.</p> |

Top Pages - Help Card

Views - Number of times this page was viewed by visitors.

% - Percentage of the total visits in which the visitor viewed this page at least once.

Pages with good content and design are more likely to attract visitors and be revisited. Less popular pages on a site can be made more appealing by improving the content or incorporating design elements similar to that on the more important pages. Always remember that people are far more interested in content than in design, and average view times can help determine which content is most important to your visitors.

Top Documents

This report identifies the most popular Web site documents, how often they were viewed, and the average length of time they were viewed.

Top Documents

| | Documents | Visits | % | Views | Avg Time Viewed |
|-----|---|--------|-------|-------|-----------------|

Top Directories - Help Card

Path to Directory - The full URL path to the directory being analyzed.

Visits - Number of visits to pages within the specified directory. A visit is a series of actions that begins when a visitor views their first page from the server, and ends when the visitor leaves the site or remains idle beyond the idle-time limit. The default idle-time limit is thirty minutes. This time limit can be changed by the system administrator.

Hits - Each file requested by a visitor registers as a hit. There can be several hits on each page. While the volume of hits reflects the amount of server traffic, it is not an accurate reflection of the number of pages viewed.

Kbytes Transferred - Number of kilobytes of data transferred by the server from the specified directory to your visitors.

% - Percentage of visits or hits to, or kilobytes of data transferred from the specified directory compared to all other directories.

This report indicates the content visitors are most interested in. Use this information to determine which content areas to develop further, which areas to focus on less, and how you can arrange your content most effectively. If the table is sorted by kilobytes of data transferred, this page reveals what kind of data the server spends the most time transferring, and may suggest different ways to organize your data, or different ways to distribute the server load if you have more than one server.

Files Dashboard

This displays key graphs and tables that provide an overview of the Files chapter. Click on the title of a graph or table to navigate to the corresponding page.

| Hit Summary | |

Most Accessed File Types - Help Card

Most Accessed File Types - Help Card

File Type - Identifies types of files by their file extension. For example, a file named graphic.gif is identified as type "gif."

Files - Number of files of the specified type accessed by visitors to your site.

Kbytes Transferred - Number of kilobytes of data transferred for all files of the specified type.

% - Percentage of all kilobytes of data transferred for the specified file type.

This report provides general statistics for the type of data that visitors access on your site.

Navigation Dashboard

This dashboard summarizes important information related to online navigation.

Top Entry Pages

This report identifies the first page viewed when a visitor visits your site. The most common entry page is usually the home page, but other common entry pages include specific URLs that visitors type, pages that have been bookmarked, or pages referred to by other sites.

Top Entry Pages

| | Pages | Visits | % |
|-----|---|---------------|----------|
| 1. | http://plant-materials.nrcs.usda.gov/eNews/ | 4,148 | 35.35% |

| 17. | http://plant-materials.nrcs.usda.gov/txpmc/ | 35 | 0.30% |
| 18. | http://plant-materials.nrcs.usda.gov/ndpmc/ | 35 | 0.30% |
| 19. | http://plant- | 34 | 0.29% |

| Top Entry Pages | | | |
|-----------------|---|---------------|----------------|
| | Pages | Visits | % |
| | materials.nrcs.usda.gov/pmcs.html | | |
| 20. | http://plant-materials.nrcs.usda.gov/mopmc/ | 34 | 0.29% |
| | Subtotal | 9,043 | 77.07% |
| | Other | 2,691 | 22.93% |
| | Total | 11,734 | 100.00% |

Entry Page - The first page viewed during a visit to your Web site. If a visit consists only of hits to non-page files, that visit has no entry page. This can cause the total number of entry pages to be less than the total number of visits.

Pages - Any document, dynamic page, or form. Different types of profiles have different default settings for which file extensions qualify a file as a document. These settings can be changed by the Reporting Center system administrator. Any URL containing a question mark is considered a dynamic page. Any file with a POST command is considered a form. If the page has a title, the title of the page and the URL are shown. Otherwise, the URL and the phrase "Page Has No Title" appear.

Visits - Number of visits where the specified page was the entry page. A visit is a series of actions that begins when a visitor views their first page from the server, and ends when the visitor leaves the site or remains idle beyond the idle-time limit. The default idle-time limit is thirty minutes. This time limit can be changed by the system administrator.

% - Percentage of times this page was the entry page compared with other entry pages.

This information can indicate how you might want to optimize the architecture of your Web site based on where your visitors are entering. It can also help you determine which external links are most effective. Consider updating meta tags and links.

Single Access Pages

This report identifies the pages on your Web site that visitors open, then exit from, without viewing any other page.

| Single Access Pages | | | |
|---------------------|-------|--------|---|
| | Pages | Visits | % |

| Single Access Pages | | | |
|---------------------|---|--------|-------|
| | Pages | Visits | % |
| 1. | http://plant-materials.nrcs.usda.gov/ | 345 | 9.82% |
| 2. | http://plant-materials.nrcs.usda.gov/id_guides/woodies/woodies.html | 303 | 8.62% |
| 3. | http://plant-materials.nrcs.usda.gov/id_guides/herbaceous/herbaceous.html | 282 | 8.03% |
| 4. | http://plant-materials.nrcs.usda.gov/welcome.html | 120 | 3.41% |
| 5. | http://www.plant-materials.nrcs.usda.gov/ | 109 | 3.10% |
| 6. | http://plant-materials.nrcs.usda.gov/header.html | 108 | 3.07% |
| 7. | http://plant-materials.nrcs.usda.gov/left_side.html | 98 | 2.79% |
| 8. | http://plant-materials.nrcs.usda.gov/pubslst/wildfire.html | 64 | 1.82% |
| 9. | http://plant-materials.nrcs.usda.gov/eNews/ | 58 | 1.65% |
| 10. | http://plant-materials.nrcs.usda.gov/hipmc/ | 39 | 1.11% |
| 11. | http://plant-materials.nrcs.usda.gov/eNews/welcome.html | 38 | 1.08% |

Single Access Pages - Help Card

Single Access Page - A page on your Web site that visitors open, then exit from, without viewing any other page. To qualify, the visit must be to a page with a valid document type. If the visit is to a document with a different type (such as a graphic or sound file), the file does not count as a single access page, and the visit is not included in the total. Such visits are often the result of other sites referencing a specific downloadable file or graphic on your site. In these cases, a visit may have a single hit to a non-document type file, and will not be counted in the percentage calculations.

Pages - Any document, dynamic page, or form. Different types of profiles have different default settings for which file extensions qualify a file as a document. These settings can be changed by the Reporting Center system administrator. Any URL containing a question mark is considered a dynamic page. Any file with a POST command is considered a form. If the page has a title, the title of the page and the URL are shown. Otherwise, the URL and the phrase "Page Has No Title" appear.

Visits - Number of visits where the specified page was the exit page. A visit is a series of actions that begins when a visitor views their first page from the server, and ends when the visitor leaves the site or remains idle beyond the idle-time limit. The default idle-time limit is thirty minutes. This time limit can be changed by the system administrator.

% - Percentage of times this page was a single access page compared with other single access pages.

This information can be helpful when considering the design of the site with respect to the kind of visitors you attract. Consider how well these pages convey your message. Do they need improvement to extend visits, or is it possible that are you attracting the wrong visitors?

Errors Dashboard

This displays key graphs and tables that provide an overview of the Errors chapter. Click on the title of a graph or table to navigate to the corresponding page.

Client Errors

This report identifies the error codes from the browsers accessing your server.

| Client Errors | | | |
|---------------|------------------------|--------------|----------------|
| | HTTP Status Codes | Hits | % |
| 1. | 404 Not Found | 1,748 | 94.28% |
| 2. | 406 Not Acceptable | 46 | 2.48% |
| 3. | 403 Forbidden | 45 | 2.43% |
| 4. | 401 Unauthorized | 13 | 0.70% |
| 5. | 405 Method Not Allowed | 2 | 0.11% |
| | Total | 1,854 | 100.00% |

Client Errors - Help Card

?

Client Errors - An error caused by a problem on your visitor's end of the Web site connection. The server is not responsible for client errors.

Hits - Number of failed hits that returned this status code.

HTTP Status Codes - The status code for the specific error that occurred.

Client Errors - Help Card

% - Percentage of total failed hits that returned this status code.

Use this page to determine what maintenance is necessary.

File Not Found Errors

This report identifies files that returned "404 - Not Found" or "410 - Gone" errors from your server.

| File Not Found Errors | | | |
|-----------------------|--|------|--------|
| | Files Not Found and Referring URL | Hits | % |
| 1. | /robots.txt (no referrer) | 988 | 54.86% |

| <p>?</p> <p>Hits - Number of times a request for this file returned a "404 - Not Found" error or a "410 - Gone" error from your server.</p> <p>Files - This column lists the file that could not be found and the URL of the referrer (if known).</p> <p>% - Percentage of the total 404 and 410 errors that were for this file.</p> <p>💡</p> <p>Check the links to all pages and files listed in this table. The files were either moved or they no longer exist, and the links are no longer successful.</p> | |

Server Errors

This report lists the errors which occurred on the server.

| Server Errors | | | |
|---------------|---------------------------|------|---------|
| | HTTP Status Codes | Hits | % |
| 1. | 500 Internal Server Error | 43 | 100.00% |
| | Total | 43 | 100.00% |

Server Errors - Help Card

?

Hits - Number of failed hits of the type specified in the "Pages" column. Each file requested by a visitor registers as a hit. There can be several hits on each page. While the volume of hits reflects the amount of server traffic, it is not an accurate reflection of the number of pages viewed.

HTTP Status Codes - The status code for the specific error that occurred.

% - Percentage of failed hits that were of the specified type.

💡

Use this page to determine what maintenance is necessary.

Visits by Day of the Week

This report shows the activity for each day of the week within the reporting period. Unsuccessful hits are not included.

| Visits by Day of the Week | | | |
|---------------------------|--------|--|---------|
| Day | Visits | | % |
| Sun | 1,402 | | 8.09% |
| Mon | 4,344 | | 25.07% |
| Tue | 3,607 | | 20.81% |
| Wed | 2,407 | | 13.89% |
| Thu | 2,511 | | 14.49% |

| Total Weekdays | 14,916 | | 86.07% |
| Total | 17,330 | | 100.00% |

Visits by Day of the Week - Help Card

?

Day - Specified day of the week being tracked.

Visits - Number of visits on the specified day of the week. If the report period is longer than one week, and there are, for example, two Mondays, the value represented includes the combined total of both Mondays. A visit is a series of actions that begins when a visitor views their first page from the server, and ends when the visitor leaves the site or remains idle beyond the idle-time limit. The default idle-time limit is thirty minutes. This time limit can be changed by the system administrator.

Visits by Day of the Week - Help Card

% - Percentage of total visits that occurred on the specified day of the week.

Number of visits on the specified day of the week. % - Percentage of total hits that occurred on the specified day of the week.

Hits by Day of the Week - Help Card

Days of less activity should be considered good days for maintenance and content improvement.

Browsers and Platforms Dashboard

This displays key graphs and tables that provide an overview of the Browsers and Platforms chapter. Click on the title of a graph or table to navigate to the corresponding page.

Top Browsers

This report identifies the most popular browsers used by visitors to your site. This information will only be displayed if your server is logging the browser/platform information.

| Top Browsers | | | | |
|--------------|--|--------|--------|---------|
| | Browser | Visits | % | Hits |
| 1. | Microsoft Internet Explorer | 12,545 | 83.42% | 173,773 |
| 2. | Netscape | 1,401 | 9.32% | 24,154 |
| 3. | Other Netscape Compatible | 674 | 4.48% | 2,016 |
| 4. | Govbot | 60 | 0.40% | 1,119 |
| 5. | Others | 53 | 0.35% | 123 |
| 6. | Xenu Link Sleuth 1.2d | 52 | 0.35% | 123 |
| 7. | ia_archiver | 33 | 0.22% | 71 |
| 8. | htdig/3.1.5 (root@localhost) | 23 | 0.15% | 23 |
| 9. | WebTV | 22 | 0.15% | 47 |
| 10. | Links SQL (http://gossamer-threads.com/scripts/links-sql/) | 21 | 0.14% | 35 |
| 11. | Xenu's Link Sleuth 1.1b | 18 | 0.12% | 438 |
| 12. | NPBot (http://www.nameprotect.com/botinfo.html) | 16 | 0.11% | 21 |
| 13. | IE 5.5 Compatible Browser | 10 | 0.07% | 12 |

| Top Browsers | | | | |
|--------------|---|---------------|----------------|----------------|
| | Browser | Visits | % | Hits |
| 14. | contype | 10 | 0.07% | 472 |
| 15. | LinkWalker | 10 | 0.07% | 259 |
| 16. | Ultraseek | 8 | 0.05% | 118 |
| 17. | DA 5.3 | 7 | 0.05% | 92 |
| 18. | Lachesis | 6 | 0.04% | 10 |
| 19. | DA 5.0 | 6 | 0.04% | 21 |
| 20. | psbot/0.1 (http://www.picsearch.com/bot.html) | 5 | 0.03% | 6 |
| | Subtotal | 14,980 | 99.61% | 202,933 |
| | Other | 59 | 0.39% | 2,747 |
| | Total | 15,039 | 100.00% | 205,680 |

Top Browsers - Help Card

Browser - A program used to locate and view Web pages. These include Netscape, Microsoft Internet Explorer, Opera and others.

Hits - Number of hits from visitors using the specified browser. Each file requested by a visitor registers as a hit. There can be several hits on each page. While the volume of hits reflects the amount of server traffic, it is not an accurate reflection of the number of pages viewed.

Total - The total activity based on the sort column (hits or visits) where there was sufficient information to identify the browser. This number may be less than the total visits or hits overall.

Visits - The total visits where there was sufficient information to identify the browser. This number may be less than the total visits overall. A visit is a series of actions that begins when a visitor views their first page from the server, and ends when the visitor leaves the site or remains idle beyond the idle-time limit. The default idle-time limit is thirty minutes. This time limit can be changed by the system administrator.

% - Percentage of total for the sort column (hits or visits) by those using the specified browser.

Browser data can help you determine how to configure your site for optimal viewing.

Note: Any hits identified as originating from a spider (an automated program that searches the Internet) are not counted in this table. Also, if a browser does not identify itself in its request to the Web server, it will get counted on this page as an "Other."

Microsoft Explorer Browsers

This report gives you a breakdown of the various versions of Microsoft Internet Explorer used by visitors to your site.

| Microsoft Explorer Browsers | | | | |
|-----------------------------|--------------|--------|---------|---------|
| | Browser | Visits | % | Hits |
| 1. | Explorer 6.x | 9,815 | 78.24% | 147,009 |
| 2. | Explorer 5.x | 2,648 | 21.11% | 26,277 |
| 3. | Explorer 4.x | 81 | 0.65% | 486 |
| 4. | Explorer 1.x | 1 | 0.01% | 1 |
| | Total | 12,545 | 100.00% | 173,773 |

Microsoft Explorer Browsers - Help Card

Microsoft Explorer Browsers - Help Card

Browser - Specific version of Microsoft Internet Explorer being analyzed. A browser is a program used to locate and view Web pages. These include Netscape, Mosaic, Microsoft Internet Explorer, and others.

Hits - Number of hits by visitors with the specified version of Microsoft Internet Explorer. Each file requested by a visitor registers as a hit. There can be several hits on each page. While the volume of hits reflects the amount of server traffic, it is not an accurate reflection of the number of pages viewed.

Visits - Number of visits by visitors with the specified version of Microsoft Internet Explorer. A visit is a series of actions that begins when a visitor views their first page from the server, and ends when the visitor leaves the site or remains idle beyond the idle-time limit. The default idle-time limit is thirty minutes. This time limit can be changed by the system administrator.

% - Percentage of visits or hits by visitors with Microsoft Internet Explorer who use the specified version.

This determines which percentage of hits come from newer browser versions and whether version-specific features (such as Java Scripts) should be implemented on your site.

Netscape Browsers

This report gives you a breakdown of the various versions of Netscape used by visitors to your site.

| Netscape Browsers | | | | |
|-------------------|--------------|--------|---------|--------|
| | Browser | Visits | % | Hits |
| 1. | Netscape 4.x | 979 | 69.88% | 19,185 |
| 2. | Netscape 5.x | 388 | 27.69% | 4,527 |
| 3. | Netscape 6 | 32 | 2.28% | 424 |
| 4. | Netscape 3.x | 2 | 0.14% | 18 |
| | Total | 1,401 | 100.00% | 24,154 |

Netscape Browsers - Help Card

Netscape Browsers - Help Card

Browser - Specific version of Netscape being analyzed. A browser is a program used to locate and view Web pages. These include Netscape, Microsoft Internet Explorer, Opera and others.

Hits - Number of hits by visitors with the specified version of Netscape. Each file requested by a visitor registers as a hit. There can be several hits on each page. While the volume of hits reflects the amount of server traffic, it is not an accurate reflection of the number of pages viewed.

Visits - Number of visits by visitors with the specified version of Netscape. A visit is a series of actions that begins when a visitor views their first page from the server, and ends when the visitor leaves the site or remains idle beyond the idle-time limit. The default idle-time limit is thirty minutes. This time limit can be changed by the system administrator.

% - Percentage of hits or visits from those with the specified version of Netscape.

This determines which percentage of visitors use newer browser versions and whether version-specific features (such as Java Scripts) should be implemented on your site.

Top Spiders

This report identifies robots, spiders, crawlers and search services (i.e. Alta Vista, Lycos, and Excite) visiting your site. The spiders shown in this report are based on a fixed list in our product code.

Top Spiders

| | Spider | Visits | % | Hits |
|-----|---|--------|--------|-------|
| 1. | Googlebot | 1,142 | 49.85% | 4,984 |
| 2. | Mozilla/5.0 (Slurp/cat; slurp@inktomi.com; http://www.inktomi. com/slurp.html) | 928 | 40.51% | 1,290 |
| 3. | Scooter | 137 | 5.98% | 317 |
| 4. | FAST-WebCrawler | 28 | 1.22% | 1,614 |
| 5. | Baiduspider (http: | 24 | 1.05% | 28 |
| 6. | Mozilla/4.0 (compatible; MSIE 4.0; Windows NT; Site Server 3.0 Robot) USDA | 4 | 0.17% | 1,220 |
| 7. | Forest Conservaton Spider (http: | 4 | 0.17% | 30 |
| 8. | NationalDirectory- WebSpider | 4 | 0.17% | 4 |
| 9. | Szukacz | 3 | 0.13% | 3 |
| 10. | Mozilla/4.0 (compatible; MSIE 5.0; NetNose- Crawler 2.0; A New Search Experience: http://www.netnose | 2 | 0.09% | 2 |
| 11. | Mozilla/4.0 (compatible; MSIE 6.0; Windows 98; Win 9x 4.90; Q312461; MSNIA; (R1 1.3); MSIECrawler) | 2 | 0.09% | 27 |
| 12. | TurnitinBot | 2 | 0.09% | 118 |

| 20. | oBot | 1 | 0.04% | 250 |
| | Subtotal | 2,290 | 99.96% | 9,946 |
| | Other | 1 | 0.04% | 4 |
| | Total | 2,291 | 100.00% | 9,950 |

Top Spiders - Help Card

Hits - Number of times the specified spider hit your site. Each file requested by a visitor registers as a hit. There can be several hits on each page. While the volume of hits reflects the amount of server traffic, it is not an accurate reflection of the number of pages viewed.

Spider - An automated program which searches the Internet.

Visits - Number of times the specified spider visited your site. A visit is a series of actions that begins when a visitor views their first page from the server, and ends when the visitor leaves the site or remains idle beyond the idle-time limit. The default idle-time limit is thirty minutes. This time limit can be changed by the system administrator.

% - Percentage of total spider visits or hits by the specified spider.

This information is important for a Webmaster trying to block spiders that tax the server. It also tells you what kind of automated attention you have attracted to your site.

Top Platforms

This report identifies the operating systems most used by the visitors to the site. This information will only be displayed if your server is logging the browser/platform information.

| Top Platforms | | | | |
|---------------|----------|--------|---|-------|
| | Platform | Visits | % | Views |

| Top Platforms | | | | |
|---------------|-------------------------------|---------------|----------------|----------------|
| | Platform | Visits | % | Views |
| 1. | Windows 2000 | 9,121 | 60.65% | 140,919 |
| 2. | Windows 98 | 2,286 | 15.20% | 22,511 |
| 3. | Windows NT | 1,257 | 8.36% | 23,810 |
| 4. | Others | 1,103 | 7.33% | 7,775 |
| 5. | Windows ME | 675 | 4.49% | 5,226 |
| 6. | Macintosh PowerPC | 349 | 2.32% | 3,186 |
| 7. | Windows 95 | 212 | 1.41% | 2,034 |
| 8. | Linux | 26 | 0.17% | 152 |
| 9. | SunOS | 6 | 0.04% | 62 |
| 10. | Windows Win32s | 3 | 0.02% | 4 |
| 11. | Hewlett Packard Unix (HP9000) | 1 | 0.01% | 1 |
| | Total | 15,039 | 100.00% | 205,680 |

Top Platforms - Help Card

Hits - Number of hits by visitors using the specified platform. Each file requested by a visitor registers as a hit. There can be several hits on each page. While the volume of hits reflects the amount of server traffic, it is not an accurate reflection of the number of pages viewed.

Platform - The specified platform being analyzed. The operating system used by the visitor to your site.

Total - The total hits or visits that were not identified as from a spider. This number may be less than the total overall.

Visits - Number of visits by visitors using the specified platform. A visit is a series of actions that begins when a visitor views their first page from the server, and ends when the visitor leaves the site or remains idle beyond the idle-time limit. The default idle-time limit is thirty minutes. This time limit can be changed by the system administrator.

% - Percentage of hits or visits by those using the specified platform.

This information is useful when determining what content to include on your Web site.

Glossary

The following terms are used in Reporting Center reports, and some are used throughout the World Wide Web in general.

| Glossary | |
|--------------------------------|---|
| Ad | A graphic or banner which takes a visitor to another Web site when clicked. |
| Ad Click | A click on an advertisement which takes a visitor to another Web site. |
| Ad View | Occurs when an ad is displayed to a visitor. Once visitors have viewed an ad, they can click on it (see Ad Click). There may be more than one ad on an ad view. |
| Authenticated Username | A unique visitor tracked by user name and password rather than by IP address. You may find more authenticated user names than total visitors because several persons may be using the same IP address. Since many ISPs dynamically assign IP addresses, and since multiple visitors may use a single IP address, authentication is a much more accurate way to identify visitors. |
| Authentication | Technique that limits access to Internet or intranet resources to visitors who identify themselves by entering a user name and password. |
| Bandwidth | Measure of the traffic on a site. Bandwidth is expressed as the amount of data transferred in a specified unit of time. |
| Browser | A program used to locate and view Web pages. These include Netscape, Mosaic, Microsoft Internet Explorer, and others. |
| Click Through Rate | Percentage of visitors who viewed an ad and also clicked on it. This is a good indication of an ad's effectiveness. |
| Client | A computer that accesses resources provided by another computer, called a server. |
| Client Errors | An error occurring due to an invalid request by the visitor's browser. Client errors are in the 400-range. See the "Status Code" glossary entry for more information. |
| Company Database | The database installed and used by Reporting Center to look up the company name, city, state, and country corresponding to a specific domain name. |
| Cookies | Files containing information about Web site visitors. This information can include the visitor's user name, preferences, etc. The information is provided by visitors during their first visit to a Web site. The server records this information in a text file and stores it on the visitor's hard drive. At the beginning of later visits, the server looks for a cookie and configures itself based on the information provided. |
| Destination Page | A page chosen by the system administrator for Path Analysis. The Path Analysis pages track which clicks brought each visitor to the selected Destination Page. |
| Documents | A page is considered a document if the path ends in a file extension configured by the system administrator as a document (examples: .htm or .doc) or if there is no file name - that is, the path ends in a slash (example: http://www.oregonmarine.com/ads/). Typically, a page will be defined as a document if the content is static (that is, it contains no query parameters). However, the administrator has the option of configuring dynamic pages to be identified as documents if he or she chooses. |
| Domain Name | The text name corresponding to the IP address of a computer on the Internet. For example, www.webtrends.com is a domain name. |
| Domain Name Lookup | The process of converting an IP address into a text name (for example, 204.245.240.194 is converted to www.webtrends.com). |
| Dynamic Pages and Forms | Dynamic pages are generated dynamically based on values selected by a visitor. They are generated with variables, and do not exist anywhere in a |

| Glossary | |
|----------------------|--|
| | static, predictable form. Reporting Center considers any URL containing options (with a question mark in the URL) a dynamic page. Any file with a POST command is considered a form. |
| Entry File | The first file requested by a visitor during a visit to your Web site. |
| Entry Page | The first page viewed during a visit to your Web site. If a visit consists only of hits to non-page files, that visit has no entry page. This can cause the total number of entry pages to be less than the total number of visits. |
| Exit Page | The last page viewed during a visit to your Web site. If a visit consists only of hits to non-page files, that visit has no exit page. This can cause the total number of exit pages to be less than the total number of visits. |
| FTP | File Transfer Protocol. It is a standard method of sending files from one computer to another over the Internet. |
| File Type | Identifies types of files by their file extension. For example, a file named graphic.gif is identified as type "gif." |
| Filters | A means of narrowing the scope of a report by specifying ranges or types of data to include or exclude. |
| Forms | Scripted pages which pass variables back to the server. These pages are used to gather information from visitors. Reporting Center counts any file with an HTTP POST command as a form. |
| GIF | Graphics Interchange Format. It is a graphics file format commonly used in HTML documents. |
| HTML | Hypertext Markup Language. It is the programming language for static Web pages. It usually includes hypertext links between related objects and documents. |
| HTTP | Hypertext Transfer Protocol. It is a standard method of transferring data between a Web server and a Web browser. |
| Hit | Each file requested by a visitor registers as a hit. There can be several hits on each page. While the volume of hits reflects the amount of server traffic, it is not an accurate reflection of the number of pages viewed. |
| Home Page | The main or introductory page of a Web site. The home page provides visitors with an overview and links to the rest of the site. It often contains or links to a Table of Contents. |
| Home Page URL | The URL for the home page of the site analyzed in the report. |
| IP Address | Internet Protocol Address. It is a series of four one- to three-digit numbers separated by periods. It is used to identify a computer connected to the Internet. For example, 212.6.125.76 is an IP address. |
| JPEG | Joint Photographic Expert Group. It is a compressed graphics format common on the Internet. |
| Log File | A file created by a Web or proxy server which contains information about the activity of the server. |
| New Users | Visitors who didn't have a cookie on their first visit, but had one during later visits. |
| No Referrer | Indicates visits to your Web site that did not originate from any other site. For example, any visitor who types the URL of your site directly into their browser window fits into this category. |
| Other | In tables showing a variable-length list of items, the number of items may exceed the number that can be viewed at one time. The values for the items not currently shown are added together and shown in the row named "Other." |
| Page | Any document, dynamic page, or form. Different types of profiles have different default settings for which file extensions qualify a file as a document. These settings can be changed by the Reporting Center system administrator. Any URL containing a question mark is considered a dynamic page. Any file with a POST command is considered a form. |
| Page View | A hit to any file classified as a page. Contrast the value for "page views" with the value for "hits," which includes hits to files of every type. |

| Glossary | |
|-----------------------------|--|
| Palm Browser | A program used on a Palm device to display site content, similar to Netscape or Internet Explorer on PCs. |
| Palm Device | A portable personal computer small enough to fit in the palm of a person's hand. Reporting Center reports only include Palm devices if the log files shows the device used a Palm browser. |
| Path Through Site | The sequence of pages a visitor views, from the entry page to the exit page and all pages in between. |
| Paths from Start | The sequence of pages a visitor views, excluding the entry page. |
| Paths to Destination | The sequence of pages a visitor views before arriving at a selected Destination Page. |
| Platform | Refers to the operating system, such as Linux or Windows 98. |
| Protocol | An established method of exchanging data over the Internet. |
| Referrer | URL of a Web page that refers visitors to your site. |
| Report Period | The dates covered in the report. You may select a report period of any day, week, month, quarter, or year within the data provided by the log analysis. |
| Returning Visitors | Visitors who already had a cookie from your site before they visited. |
| Script | A simple programming language used to execute specific or limited tasks. Scripts are often used for pages on the Internet to serve dynamic content and to tailor pages for individual visitors. |
| Server | A computer that hosts information available to anyone accessing the Internet or an internal intranet. |
| Server Error | An error occurring on the server. Web server errors have codes in the 500 range. |
| Single Access Page | A page on your Web site that visitors open, then exit from, without viewing any other page. To qualify, the visit must be to a page with a valid document type. If the visit is to a document with a different type (such as a graphic or sound file), the file does not count as a single access page, and the visit is not included in the total. Such visits are often the result of other sites referencing a specific downloadable file or graphic on your site. In these cases, a visit may have a single hit to a non-document type file, and will not be counted in the percentage calculations. |
| Spider | An automated program which searches the internet. |
| Status Code | <p>The HTTP status code of a file request specifies whether the transfer was successful or not, and why. These codes are defined in RFC 2616, section 6.1.1.</p> <p>"Success" codes:</p> <p>100 = Success: Continue 101 = Success: Switching Protocols 200 = Success: OK 201 = Success: Created 202 = Success: Accepted 203 = Success: Non-Authoritative Information 204 = Success: No Content 205 = Success: Reset Content 206 = Success: Partial Content 300 = Success: Multiple Choices 301 = Success: Moved Permanently 302 = Success: Found 303 = Success: See Other 304 = Success: Not Modified 305 = Success : Use Proxy 307 = Success : Temporary Redirect</p> <p>"Failed" codes:</p> |

| Glossary | |
|-----------------------------|---|
| | <p>400 = Failed: Bad Request</p> <p>401 = Failed: Unauthorized</p> <p>402 = Failed: Payment Required</p> <p>403 = Failed: Forbidden</p> <p>404 = Failed: Not Found</p> <p>405 = Failed: Method Not Allowed</p> <p>406 = Failed: Not Acceptable</p> <p>407 = Failed: Proxy Authentication Required</p> <p>408 = Failed: Request Time-out</p> <p>409 = Failed: Conflict</p> <p>410 = Failed: Gone</p> <p>411 = Failed: Length Required</p> <p>412 = Failed: Precondition Failed</p> <p>413 = Failed: Request Entity Too Large</p> <p>414 = Failed: Request-URI Too Large</p> <p>415 = Failed: Unsupported Media Type</p> <p>416 = Failed: Requested range not satisfiable</p> <p>417 = Failed: Expectation Failed</p> <p>500 = Failed: Internal Server Error</p> <p>501 = Failed: Not Implemented</p> <p>502 = Failed: Bad Gateway</p> <p>503 = Failed: Service Unavailable</p> <p>504 = Failed: Gateway Time-out</p> <p>505 = Failed: HTTP Version Not Supported</p> |
| Subtotal | In tables showing a variable length list of items, the number of items may exceed the number that can be viewed at one time. The values for the items currently shown are added together and shown in the row named "Subtotal." |
| Suffix (Domain Name) | See "Top-Level Domain." |
| Time Interval | A one-year report displays monthly time increments. A one-quarter report displays weekly time increments. A one-month report or a one-week report displays daily time increments. A daily report displays hourly time increments. An hour-long interval marked 12:00, for example, includes all activity between 12:00 and 12:59. |
| Top-Level Domain | <p>The suffix of a domain name. A top-level domain can be based on the type of organization (.com, .edu, .museum, .name, etc) or it can be a country code (.uk, .de, .jp, .us, etc.). The top-level domain can be used to identify the type of web site. The following is a partial list of how this report categorizes top-level domains:</p> <p>ARPANET: .arpa</p> <p>Commercial: .com .co .com.[country code] .co.[country code] .firm.co .firm.ve .ltd.uk</p> <p>Education: .edu .edu.[country-code] .ed.[country code] .ac.[country code] .school.[country code] .k12.[country code] .re.kr .sch.uk .edunet.tn</p> <p>International: .int .int.co .int.ve .intl.tn</p> <p>Government: .gov .gov.[country code] .gove.[country code] .go.[country code]</p> <p>Military: .mil .mil.[country code]</p> <p>Network: .net .ad.jp .ne.kr .net.[country code]</p> <p>Organization: .org .or .org.[country code] .or.[country code]</p> |

| Glossary | |
|---------------------------------|--|
| Total | This table row gives the sum of all of the items for the current table during this report period. If the number of items for the table exceeds the number that can be viewed at one time, then a "Subtotal" row and an "Other" row will also be provided, and their sum will equal the Total row. |
| Traffic | The quantity of data transferred. |
| URL | Uniform Resource Locator. It is a means of identifying an exact location on the Internet. For example, http://www.webtrends.com/html/info/default.htm is the URL which defines the location of the page Default.htm in the /html/info/ directory on the NetIQ Corporation Web site. As the previous example shows, a URL is comprised of four parts: Protocol Type (HTTP), Machine Name (webtrends.com), Directory Path (/html/info/), and File Name (default.htm). |
| Unique Visitors | Individuals who visited your site during the report period. If someone visits more than once, they are counted only the first time they visit. |
| User Agent | Portion of a log file that identifies the browser and platform used by a visitor. |
| Users Without Cookies | Visitors who come to your site with cookies disabled. There is no way to determine if these visitors are new or returning. |
| Visit | A visit is a series of actions that begins when a visitor views their first page from the server, and ends when the visitor leaves the site or remains idle beyond the idle-time limit. The default idle-time limit is thirty minutes. This time limit can be changed by the system administrator. |
| Visit Duration (Minutes) | The number of minutes your Web site was viewed by a visitor. |
| Visitor Minutes | Total number of minutes your site was viewed by all visitors during the report period. |
| Visits with Clicks | Visits to your site where at least one ad was clicked on. |
| WAP Browser | A program used on a WAP device to display site content, similar to Netscape or Internet Explorer on PCs. |
| WAP Carrier | A server that acts as an intermediary and relays requests from visitors with WAP devices to your site. |
| WAP Device | A wireless device using Wireless Application Protocol (WAP), such as a cellular telephone or radio transceiver, that can be used to access the Internet. Reporting Center reports only include WAP devices if the log file shows the device used a WAP browser. |
| WTLS | Acronym for Wireless Transport Layer Security protocol, which is the security layer endorsed by the WAP Forum (www.wapforum.org). Its primary goal is to provide privacy, data integrity, and authentication for WAP applications. |

This report was generated by WebTrends(R) Wednesday November 5, 2003 - 13:10:48
